DETAILED DESCRIPTION

[Detailed explanation of the device]

[0001]

[The technical field to which a device belongs]

This design is related with the sanitary napkin by which coloring or encaustic attachment was carried out around a rear face and the wing.

[0002]

[Description of the Prior Art]

Pink with the conventional product light about coloring of this design or an encaustic attachment portion and a white thing are most.

When sense of incongruity is produced to a color tone with the wing circumference when the underwear of other colors is worn, and the underwear of ***** is worn, unless underwear is worn in piles, there is a possibility that having the period may be recognized also from the exterior.

[0003]

[Problem(s) to be Solved by the Device]

Wear of the underwear corresponding to a hobby idea is enabled without recognizing having the period from the outside, it doubles, the fashionability of a sanitary napkin is improved, and they are things.

[0004]

[Means for Solving the Problem]

When underwear is equipped with a napkin, a problem is solved by enabling it not to recognize having equipped with a napkin from the exterior easily by planning a sense of togetherness with coloring or a wood-graining opium poppy, and underwear for a napkin rear face and the wing circumference which can be recognized from the outside. Simultaneously, an image of a consumer called sanitary items is changed, the fashionability of the napkin itself is improved, and a technical problem is solved.

[0005]

[An embodiment of a device]

Underwear is equipped by the same method as the conventional sanitary napkin with the wing.

[0006]

[Example]

It equips with the underwear worn at the time of physiology, and a sanitary napkin with the wing part etc. which performed coloring of the same color.

[0007]

[Example]

When the underwear worn at the time of physiology is with a pattern, it equips with a sanitary napkin with the wing part etc. which gave the similar pattern.

[0008]

[Effect of the Device]

Mental coolness at the time of un-**** physiology can be planned to the conventional sanitary napkin having pursued only physiological coolness by realizing a sense of togetherness with underwear as mentioned above by this design.
